SUMMARY

I am an enthusiastic Software Engineer who has passionate about coding, technologies, and business development. Diligent software engineer with 1+ years of experience in the Fintech industry, especially in mortgage, banking, and e-commerce applications. I do intentionally focus on problem-solving, accessibility, performance, speedy development, dedication to work, and willingness to adapt to cutting-edge technologies.

EXPERIENCE

Front-end Developer
FPT Software VietNam   **December 2021 - Present**
· Studying the business requirements and mock-ups provided, and analyzing data and numbers to identify any potential issues.
· Developed web application UI/UX following requirements and mock-up designs by Angular Framework.
· Wrote clean, well-documented, easy-to-read code, and wrote common components by using modular programming.
· Improved development productivity by 20% by re-using components, implementing automatic tools and extensions, and refactoring code to use more efficient functions.
· Create unit and automated tests to ensure 100% test coverage and 100% code coverage, by utilizing Jasmine and Selenium WebDriverIO.
· Participated in an Agile development methodology, understanding both front-end and back-end processes, while specializing in the front-end.

Project: Build a web application for a large mortgage corporation in the US market.
Tech stack: Angular, .NET and Sheerpower.
Achievements:
· Delivered 2 technical sharing presentations: Avoid Angular memory leaks and Increase the UI Development velocity.
· Took more than 10 certificates which are related to Web Development knowledge.

Freelance Front-end Developer
Upwork   **May 2021 - November 2021**
· Designed and developed web applications for clients by using ReactJS and NodeJS.
· Developed landing pages with sign up email and achieve a conversion rate of 10%.
· Participated in a small team, prototyped and launched a new product in three months, using NextJs, MongoDB, Express, NodeJS, achieving an average of 1,000 monthly visitors.
· Cloned popular websites to learn how to build web application, get best practices and improve the development process.

EDUCATION

Bachelor of Finance Managements
Da Nang University of Economics · Da Nang City, Vietnam · 2020

CERTIFICATIONS

Angular - The Complete Guide
Udemy · 2022
Certified in understanding and implementing Angular 8 to develop web application.

Learn and Understand NodeJS
Udemy · 2022
Certified in learning and understanding NodeJS to develop a web server.

WebDriverIO - Javascript UI Automation
Udemy · 2022
Certified in automation test NodeJS framework for browser and mobile.

Javascript Algorithms and Data Structures
Free Code Camp · 2021
Certified in understanding and practicing Javascript Algorithms and Data Structures.

Front End Development Libraries
Free Code Camp · 2021
Certified in understanding and implementing React, Redux, SASS and Bootstrap libraries to develop web application.

SKILLS

Technical Skills: Angular, ReactJS, NextJS, NodeJS, Javascript, Typescript, Redux, HTML5, CSS3, SASS/SCSS, Bootstrap, TailwindCSS, Restful APIs, FOP, OOP, GIT, MongoDB, Mongoose.

Web Development: UX/UI, Development Operations, Testing, Debugging, Usability Research.

Soft Skills: Leadership, Public Speaking, Technical Sharing, Problem Solving, Decision Make.
